

Dear Stuart Aust,

Congratulations: your company, Bug Doctor, Inc, has made the 2010 Inc. 5000 list of the fastest-growing, private companies in America.

This achievement puts you in rarefied company, especially if you consider that over 27 million businesses are registered in the USA. The elite group you've now joined has, over the years, included companies such as Microsoft, Timberland, Visa, Intuit, Jamba Juice, Oracle, and Zappos.com.

In fact, many of today's most successful U.S. companies received their first national recognition when they appeared on the *Inc.* list.

This kind of accomplishment is truly worth celebrating. The 29th Annual Inc. 500|5000 Conference and Awards Ceremony will be held September 30 to October 2, 2010 at the Gaylord National Resort and Convention Center in Washington, D.C. The event sells out year after year, so it's smart to register early (plus you will save \$400 per attendee by registering before August 2nd). To do so, go to www.inc5000conference.com or call us at 866-901-3205.

We will be coordinating a major public release of the list on August 24 and request that you please refrain from any public announcements about your inclusion until then – particularly since information about each company's official rank will not be available until that time. By mid-August, more information – including your company's rank – will arrive by mail in your official honoree package.

I look forward to congratulating you in person in Washington, D.C.

Sincerely,

A handwritten signature in black ink that reads "Jane Berentson". The signature is written in a cursive, flowing style.
